

Pegboard

Versatile Pegboard Reversible Sheet

- Reversible design giving you a choice between Black and White finishes
- Ultra smooth and durable melamine coated surface
- Featuring holes that have a 4.5mm diameter and are spaced 25mm apart

FEATURES

Organise your space and keep all your items neatly and easily accessible with Pegboard Reversible. This 5.5mm Pegboard sheet features a two-sided melamine coated surface in Black and White, offering greater versatility and durability.

- Lightweight and easy to handle for DIY applications
- 5.5mm E0 HDF provides less flex than traditional masonite
- Quick and easy to install ensuring a hassle-free experience
- The melamine coating provides a sleek, professional look, ensuring an easier to clean finish
- Easy to cut leaving smooth, clean edges
- Proudly Australian-made from managed and renewable Australian plantation pine

SPECIFICATIONS

AUSTRALIAN PANELS AVAILABLE PRODUCT RANGES

FLOORING

With an extensive range of options, Australian Panels can accommodate subfloors, suspended floors in multi-storey construction, building additions and extensions along with oversized commercial flooring spaces.

PANELLING

Made with the same durable materials used in our market leading STRUCTAflor particleboard flooring products, the new and exciting panelling products consist of STRUCTApanel Structural Panelling in Smooth, Black and T&G VJ150.

BOARD

Our CUSTOMwood (MDF) and CUSTOMpine (Particleboard) ranges both have Raw and Laminated options that make a versatile product to use in interior fitout solutions. Whether it be for the reliable quality that guarantees uniformity in size, density, and strength or for applications that are subject to humidity or moisture, such as bathroom vanities and kitchen cupboards, Australian Panels has the solution.
